

## Who is Bactronix®?

Bactronix is a science based microbial control company that helps to create healthier environments using our eco-responsible products.

The exclusive Two-Step Bactronizing™ Process is applied with an advanced electrostatic delivery system. The Two-Step process eliminates bacteria, viruses, mold and odor.

## Bactronix Saw the Need

Bactronix is always on the cutting edge of research and development in the microbial control world. With the pandemic of 2020 we were prepared to be on the front lines of treatment for SARS-CoV-2. Our technicians work around the clock to help reduce and control the spread of this deadly virus.

With the investment of the BactroLab we are now able to provide accurate test results and treatment plans for any business or home that may have had an outbreak. Same day testing, same day treatment.

Call our specialists today!

### Testing for SARS-Cov-2 Coronavirus on Environmental Surfaces

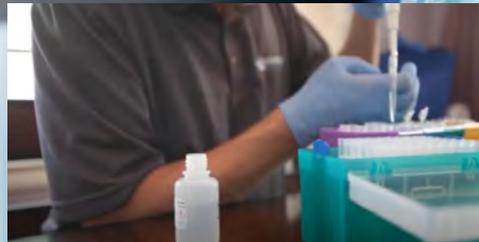

With this capability, our certified Bionomic Specialists can test hard and soft surfaces in homes, schools, offices, restaurants, care facilities, medical facilities, vehicles, etc. These tests are then processed by the lab technicians at our in-house, state of the art laboratory, known as our BactroLab, for diagnostics that produce positive or negative test results for SARS-CoV-2 Coronavirus within hours. If the result is positive, we can treat with our exclusive Bactronizing Process, allowing you to be back in business shortly thereafter.

### TESTING HIGH TOUCH POINTS

### PROCESSING AT THE BACTROLAB

### RESULTS IN 24 HOURS

## ADVANTAGES

- ✓ 99.7% accuracy
- ✓ Same day testing
- ✓ Results in 24 hours
- ✓ FDA Approved
- ✓ QPCR testing which removes interferences that cause false readings
